

GOLF SIMULATOR- START & SHUT DOWN INSTRUCTIONS

FOLLOW THESE STEPS TO PROPERLY POWER ON AND SET UP THE SIMULATOR BEFORE STARTING YOUR SESSION.

Step 1: Turn On Power & Wi-Fi

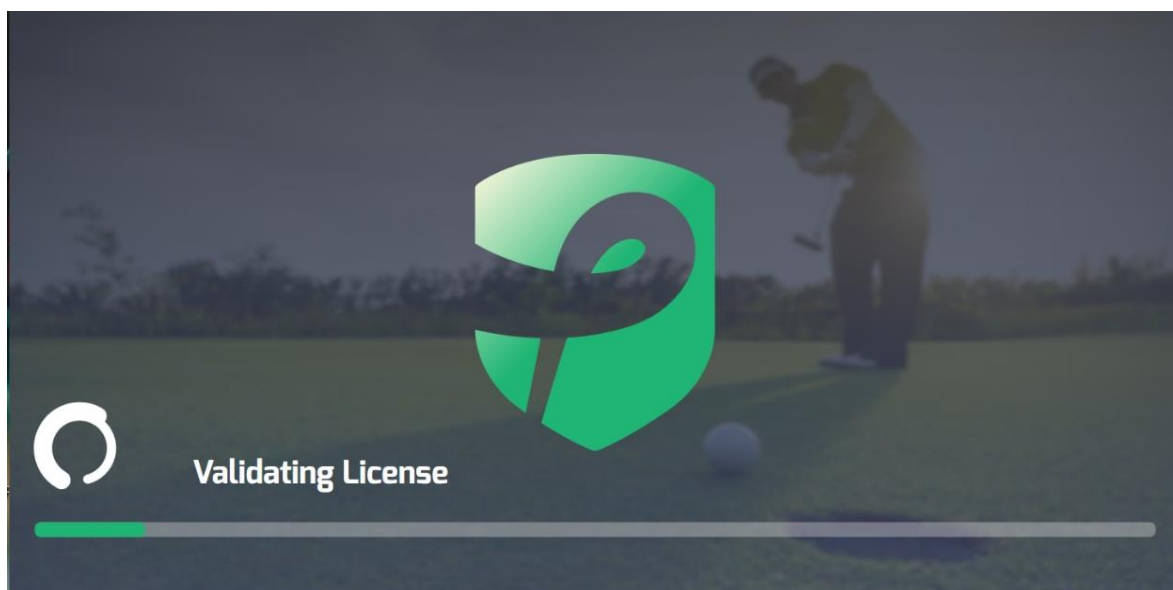

- Ensure the main power supply to the simulator area is switched ON.
- Turn on the WiFi router to enable internet access for ProTee Labs and system updates.

Step 2: Switch On The Projector & PC

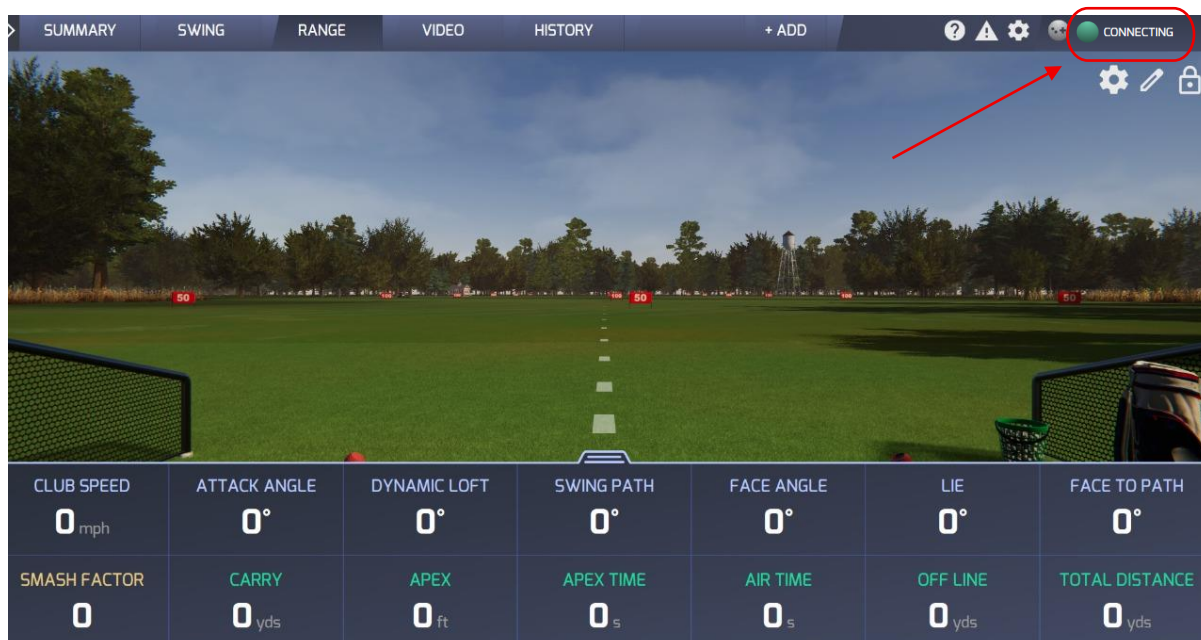

- Power on the projector using the remote.
- Press the power button on the PC and wait for it to start up completely.
- Confirm that the projector is displaying the PC screen.

Step 3: Launch ProTee Labs Application

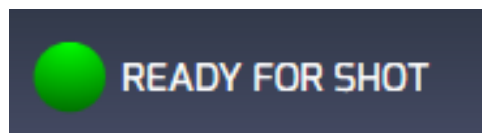

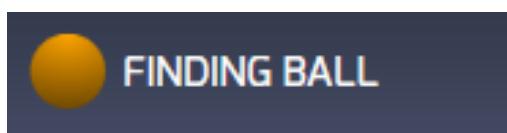

- On the PC desktop, open the “ProTee Labs” application 
- Wait for few seconds for the launch monitor and sensors to connect automatically.

- Once connected, check the top right corner of the screen – it should display “Connected”.

- The system will then show “Finding Ball”, and once the ball is detected, it will change to “Ready For Shot”.

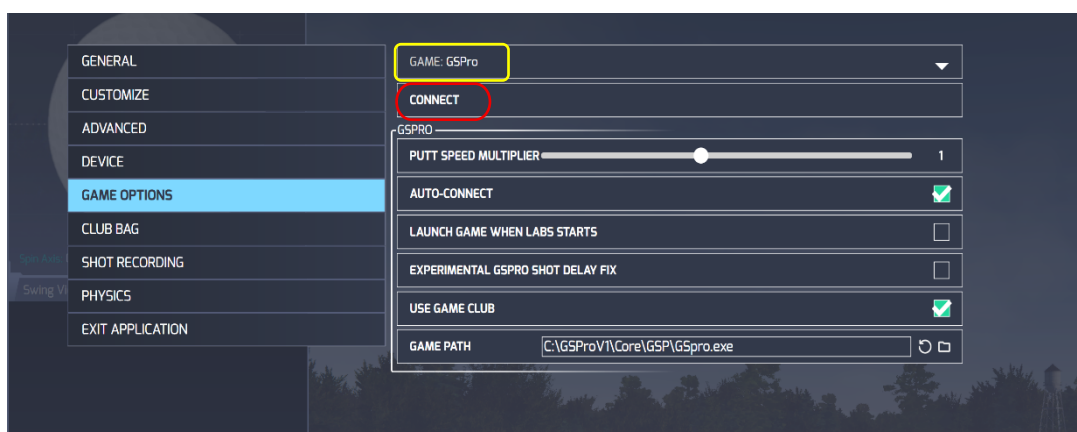

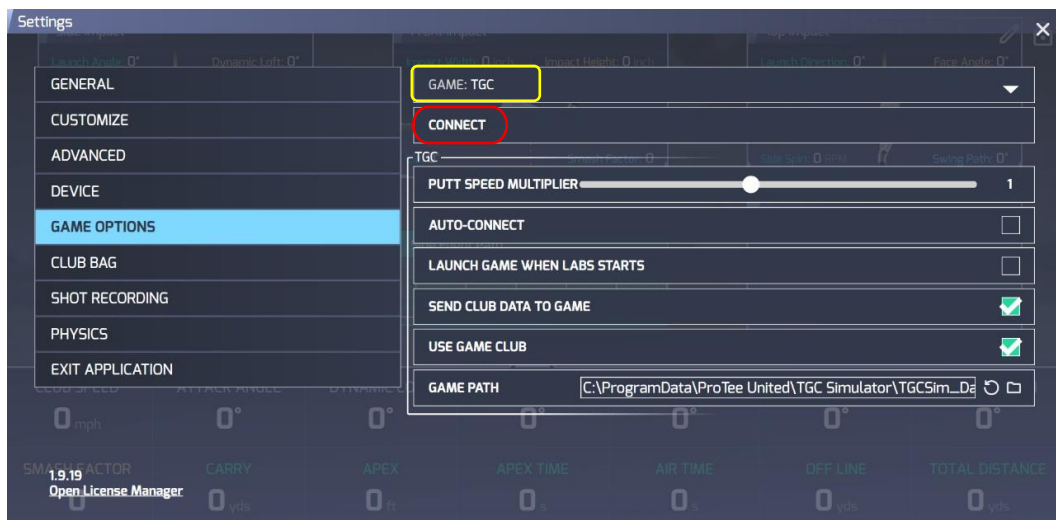

➤ TO PLAY ON THE COURSE

- After completing the above set up, in the ProTee Labs application 
- Here, you will see a dropdown menu to select the game software.

You can choose either:

1. TGC
2. GS PRO

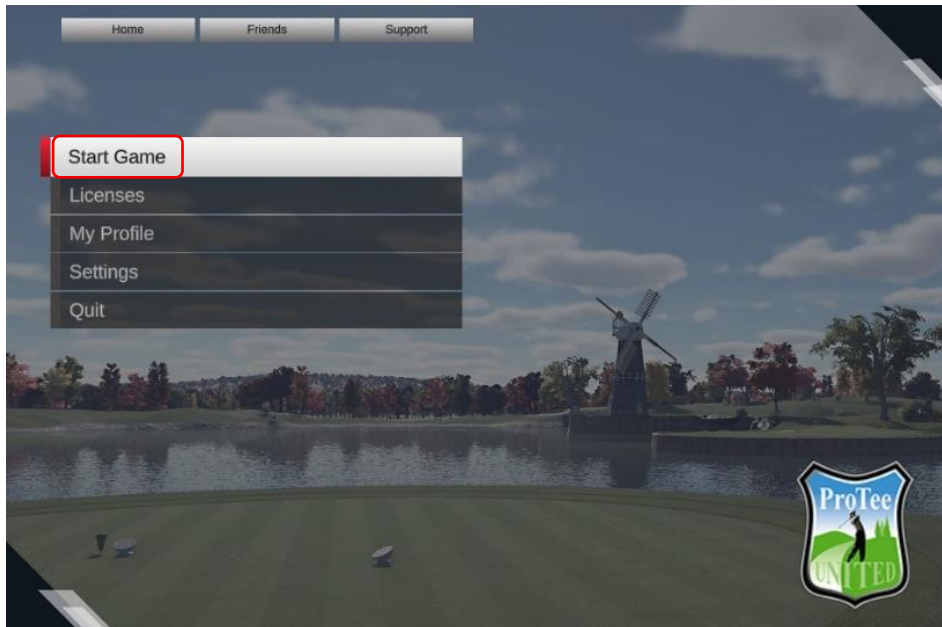

Go to Settings ➡ Game Options ➡ Connect.

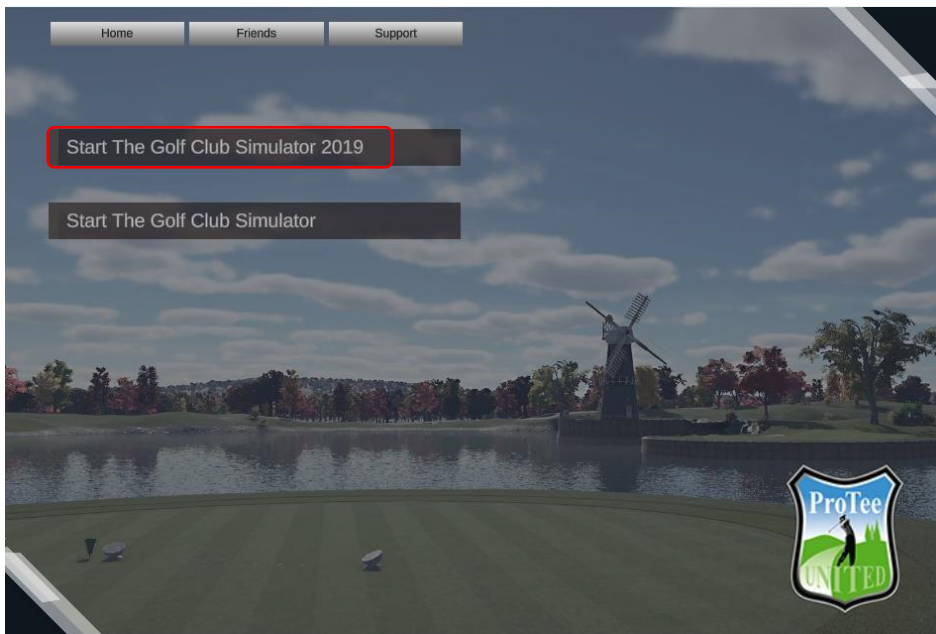

➤ Once connected, you'll be able to launch and play on the course.

➤ PLAYING ON THE COURSE – TGC SOFTWARE

Step 1: Click on “Start Game”

Step 2: Click on “Start The Golf Simulator 2019”

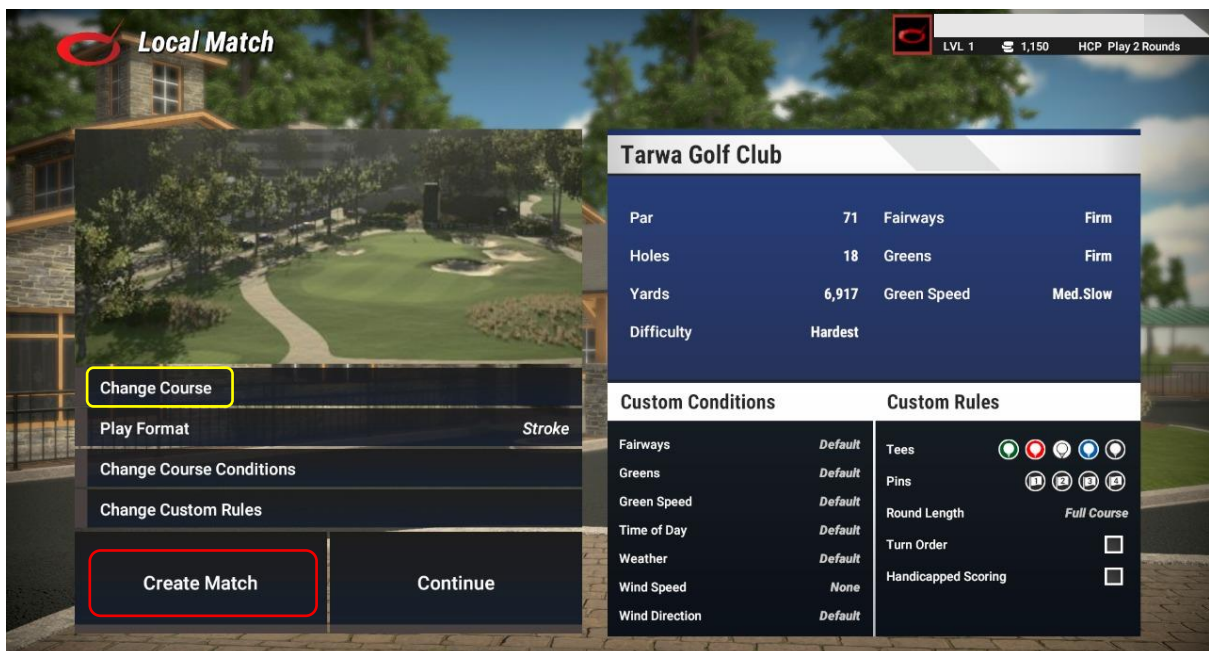

Step 3: Click on “Local Match”

Step 4: Click on “Change Course” and choose your desired course.

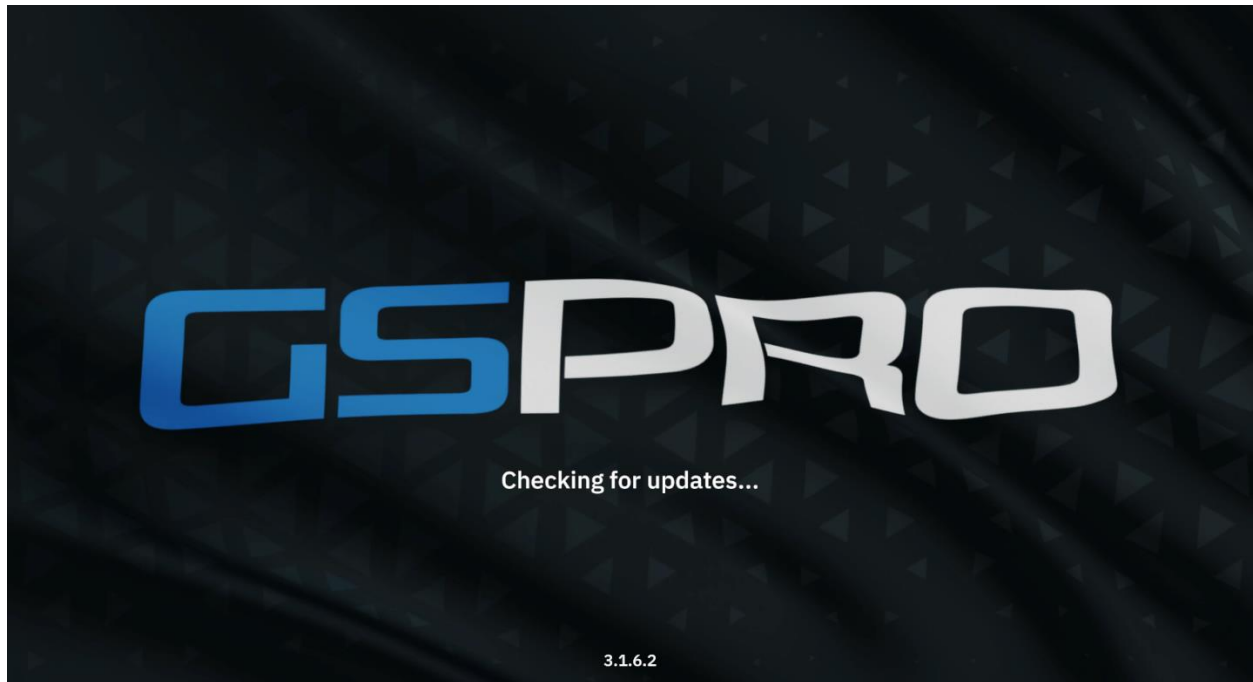

And then click on “Create Match”.

➤ PLAYING ON THE COURSE – GS PRO SOFTWARE

Step 1 : GS PRO Launching Screen.

The system will check for updates. Please wait until the loading completes.

Step 2 : GS PRO Home Screen.

From here, you can choose how you want to play:

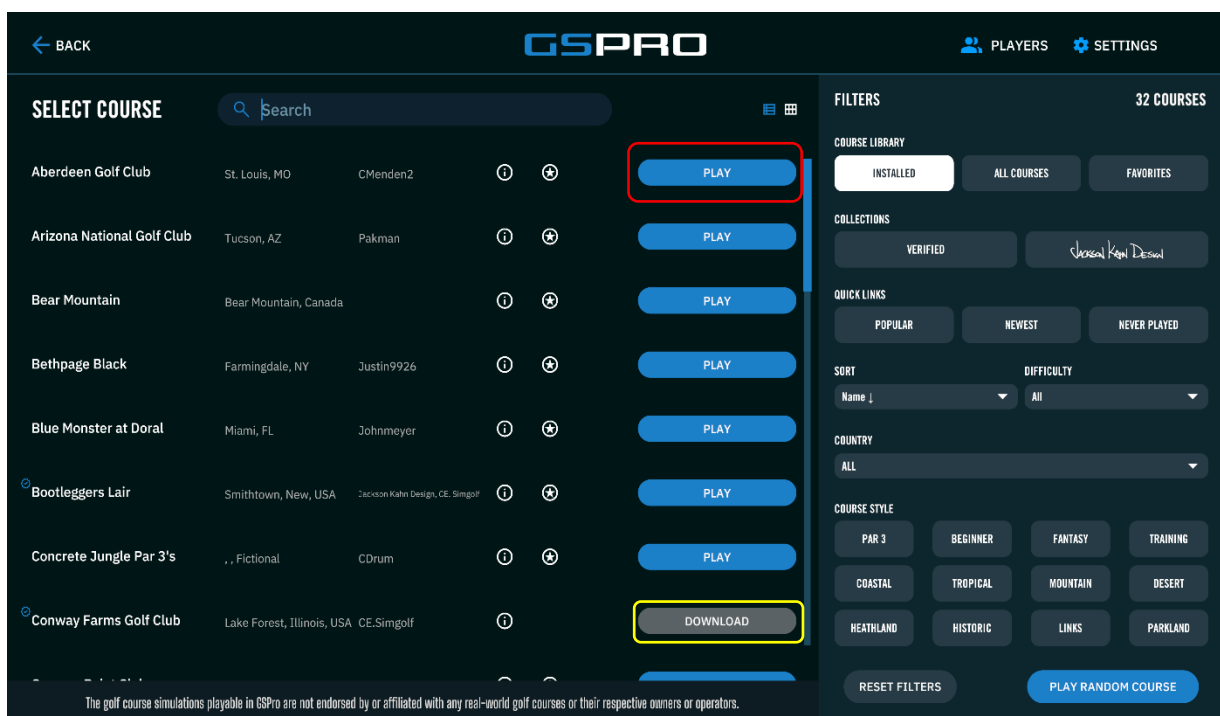

1. Local Match
2. Practice
3. Challenges
4. Tournaments
5. Online Match

➡ For Normal Course Play – Select Local Match.

Step 3 : Select Course.

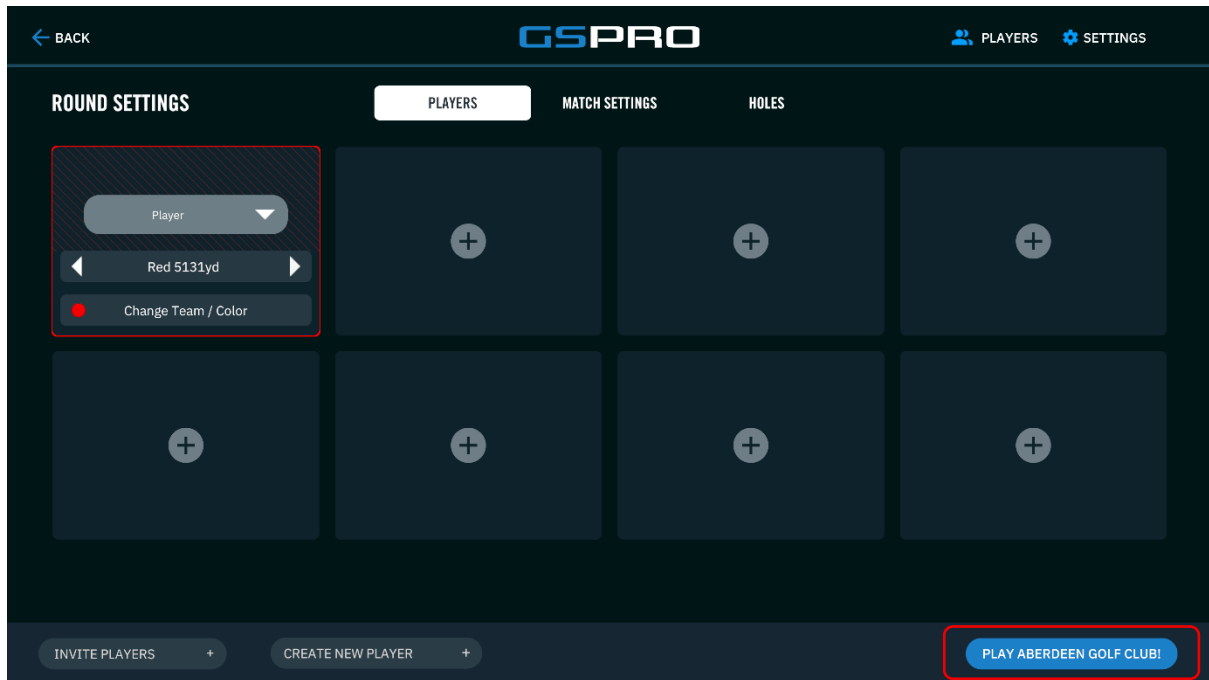

- Browse or Search for a course.
- Use Filters if required.
- If the course is not installed, click Download first.
- Click Play next to the desired course.

Step 4 : Player & Round Settings

- Add players if required.
- Adjust tee color or team settings.
- Confirm match & hole settings.

Once everything is set, click Play to start the round.

SHUT DOWN INSTRUCTIONS

Step 1: Exit the Game

- Click on “Esc” key on keyboard.
- Click on “Quit” to exit the game and return to the ProTee Labs main screen.

Step 2: Close the ProTee Labs Application

- In the ProTee Labs application, go to “Settings” and then click on “Exit Application”.

Step 3: Shut Down the PC

- Click the “Windows Start Menu”, go to “Power” and then click on “Shut Down”.
- Wait for the PC to turn off completely.

Step 4: Turn Off Projector

- Use the projector remote to power off the projector.

Step 5: Turn Off Power & Wi-Fi

- Switch off the main power supply to the simulator area.
- Turn off the Wi-Fi router if it’s not needed.
