

TruePace Putting Turf

Premium Putting Surface

True Roll | Elite Density

The True Putt. The Consistent Speed. The Advantage.

Every golfer knows the difference between a dead putt and one that rolls true. TruePace recreates that feel—predictable, consistent, tournament-grade rolling Stimp speed of about 10.

Built from 100% premium PE curled yarn at 16 mm pile height, high performance premium density stitch rate, TruePace delivers authentic putting performance without grain bias or directional inconsistency. Dual-color construction mimics natural green variation. Sand infill fine-tunes Stimp speed. Pace control is real.

Premium PE putting surface, custom-engineered for studios, academies, and clubs.

Why TruePace for Your Studio?

- ✓ **Stimp 10 Performance** – True, consistent 10-foot roll
 - ✓ **Elite Density** – Super high density resists matting; maintains surface integrity over years of practice
 - ✓ **Custom PE Engineering** – 5,600 dtex PE, 80,000+ density curled yarn optimized for putting (not generic multisport)
 - ✓ **Dual-Color Construction** – Natural 2-tone green blend eliminates visual grain perception
 - ✓ **No Grain Effect** – Putt from any direction with identical speed and roll characteristics
 - ✓ **Realistic Green Feel** – 16 mm pile provides firm, true contact underfoot like natural greens
-

Applications

Golf Simulators – Optimal for putting bays with accurate Stimp 10 performance; ideal companion to SoftImpact tee-up turf

Indoor Academies – High-density surface for putting instruction; consistent speed for student feedback

Golf Clubs & Ranges – Premium practice green for member facilities; tournament-speed performance

High-End Residential – Premium home putting setup for serious golfers; professional-grade practice

Boutique Golf Facilities – Signature putting greens for luxury installations

The Complete System

Pair **TruePace** with **SoftImpact Tee-Up Turf** for premium tee-to-green performance:

- **SoftImpact:** Full-swing and wedge work – fairway-like strike, reduced joint impact
- **TruePace:** Putting surface – Stimp 10 roll, no grain bias, elite density

Together, they deliver the complete simulator experience: authentic fairway-to-green performance, world-class durability, and serious golfer satisfaction.
